

THE STONEBRIDGE WOMEN'S CLUB PAST, PRESENT, AND FUTURE

The Stonebridge Women's Club is kicking off its 14th year of existence. The Club was the idea of Gwen Erlich when the community was just getting started. There was no clubhouse, no amenities to speak of except for a group of approximately 39 women who felt the need to build a sense of community. They met in each other's homes and later in the sales office.

Over the years the club grew to what it is today, which is a club with 468 members, with a rich history of charitable, social, educational, and communal events. I have had the honor of serving on the Women's Club Executive Board for 13 years in various positions, most memorable as President and Treasurer. I know I will miss being an officer in this amazing club, but I will not be more than a phone call away.

I see a bright future for The Women's Club. Through much time and effort put forth to assemble a new Executive Board of Facilitators and Committee Leaders I am so happy to say that our club will continue in very good hands. I am appreciative of the women who have stepped up to save the club when it was on the brink of being dissolved. I would ask that you all continue to support the club with your membership and participation in the many fun and charitable works that are planned for the 2023 -2024 year.
